

FHWA Webinar Series: Overcoming the Challenges of Congestion Pricing

The Federal Highway Administration (FHWA) Offices of Operations and Innovative Program Delivery have launched a new webinar series, entitled “Overcoming the Challenges of Congestion Pricing.” These webinars are aimed at state and local agencies that are currently in the process of implementing or would like to implement congestion pricing; decision-makers/political leaders who want to better understand the benefits of congestion pricing; metropolitan planning organizations (MPOs) that may be interested in incorporating pricing into their planning activities; and others who just want to learn more about congestion pricing strategies.

There is no cost to participate in these webinars and they are open to everyone who is interested. Each webinar will last 90 minutes, with 60 minutes allocated for presentations, and 30 minutes for audience Q&As. Through the use of Web conferencing technology, participants can view the speakers’ presentations on their computer and hear the audio portion of the presentations either via the computer or telephone, depending on preference.

Please see below for the webinars scheduled for 2011. You must register in advance for each webinar at http://www.ops.fhwa.dot.gov/tolling_pricing/webinars/index.htm. Registration will be available one month prior to each webinar. Once you register you will receive an email with login instructions. All webinars will be recorded and the recording, a transcript, and the presentations will be available on the FHWA Tolling and Pricing web site following each webinar.

We look forward to your participation and hope you find these webinars beneficial to your professional needs! Please forward this to anyone else you know who might be interested.

If you have questions, please contact Angela.Jacobs@dot.gov or Patrick.DeCorla-Souza@dot.gov.
